

NASA Internships/AFRL Scholars Program

Presented by:

Dr. Amanda Smith Hackler

Senior Manager

Universities Space Research Association (USRA)

USRA

NASA Internships

About the program…

- The NASA Internship program offers opportunities to strengthen the retention of students in STEM fields.
- High school, undergraduate, and graduate students are paired with a seasoned scientist in their discipline for an immersive research experience.
- Non-STEM students can also submit applications.
- In 2018, participation increased to 1,685 students interning agency-wide.
- Since its inception in April 2013, 6,042 interns have participated in the NASA Internship program.

USRA Proprietary

NASA Internships

Air Force Research Laboratory (AFRL) Scholars

About the program…

- The Air Force Research Laboratory (AFRL) Scholars Program offers stipend-paid summer internship opportunities to high school, undergraduate, and graduate level university students pursuing STEM degrees.

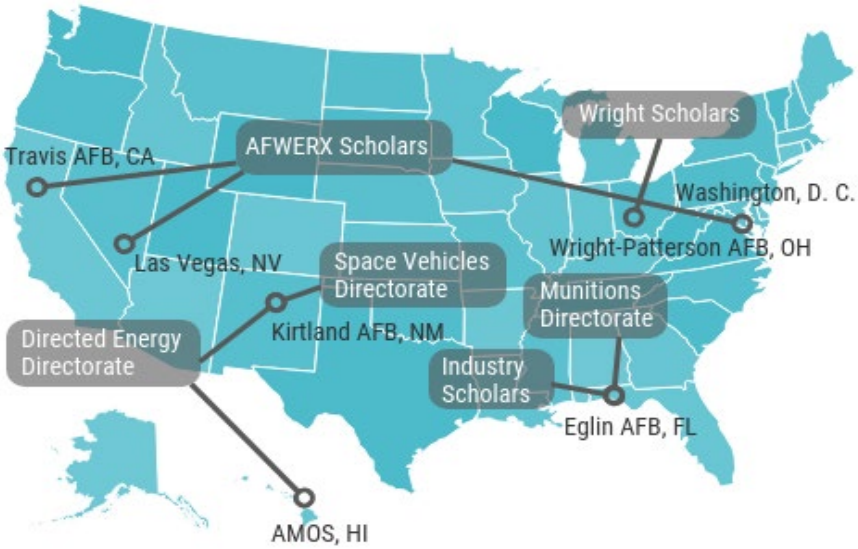
- The selected interns gain valuable hands-on experiences working with full-time AFRL scientists and engineers on cutting-edge research and technology.

- 290 students participated in the AFRL Scholars program during 2018.

Air Force Research Laboratory (AFRL) Scholars

Eligibility Requirements

- U.S. citizenship
- GPA: 3.0 on a 4.0 scale
- High school students
  - ➢ Must be at least 16 years of age and have a valid driver's license
- Undergraduate or graduate students
  - ➢ Must be enrolled or accepted at an educational institution taking at least half-time academic course load leading to a degree or certificate for semester immediately preceding internship session.



How do I apply?

- www.afrlscholars.usra.edu
- Applications for Kirtland AFB are due January 15, 2019!
- Applications for Eglin AFB are due December 10, 2018!

Let's keep in touch!
