

LPI's mission is to advance understanding of the solar system by providing exceptional science, service, and inspiration to the world.

Library/RPIF

Online Collections at Your Fingertips

The LPI library organizes and maintains a collection of space-science-related materials in a variety of media — including books, journals, documents, maps, and images — to facilitate lunar and planetary science research and disseminate science information to the public. The collection includes one of 17 international NASA Regional Planetary Image Facilities (RPIF). Library staff provide reference services upon request. Tours can be arranged during business hours.

"Great resource with great support staff. Everything you ever wanted to know about planetary science is right there at your fingertips."

LPI's unique library collection includes

- Historical documents from the Apollo program
- Negatives, positives, and prints from missions
- More than 60,000 catalogued books, documents, maps, globes, and videos
- A dedicated children's section containing nearly 1000 items
