

Park Ranger _____'s Journal

Your name

My team's region is the (circle one):

New England/Mid-Atlantic Southeast South
Midwest/Ohio Valley High Plains Southwest Northwest

The states in this region are:

Here are the names of some state and national parks in this region:

Many different types of plants grow in my team's region. Here's what park visitors would see, smell, and touch when exploring the plants in each state in my team's region. (Circle the plant types that grow in your region. For each type, write down the names of some of those types of plants, the states in which they grow, and how they would look, smell, and feel to park visitors.)
