

Grown-up Moon: What do you see in today's Moon?

Write your own story about these features here:

Well, team, I see how everything came together to form the Moon we know and love. It's beautiful!

I learned a lot about the Moon through our journey back in time, but now I have more questions! Our jobs as scientists are never done. What are your questions about the Moon?

Trace out the Moon's surface features to show what shapes you see in the Moon.
