

List of Invited Speakers

The following is a list of those who have accepted an invitation to speak at the Workshop on Dust in Planetary Systems:

Nicolas Altobelli

In-Situ Spacecraft Monitoring of the Interstellar Dust Stream in the Solar System

Jack Baggaley

Interstellar Meteors

John Bradley

A Revolution in the Nano-Scale Characterization of IDPs and Other Primitive Meteoritic Materials

Don Brownlee

Wild 2 Observations by Stardust

Margaret Campbell-Brown

The Meteoroid Environment: Shower and Sporadic Meteors

Simon Green

Stardust Wild 2 Dust Measurements

Mihaly Horanyi

Dusty Plasma Effects in Planetary Rings

Alexander Krivov

Physics of Debris Disks

Casey Lisse

Deep Impact and Comet 9P/Tempel 1: From Evolved Surface to Interior Primeval Dust

Scott Messenger

The Nature and Histories of Presolar Dust Grains

Amaya Moro-Martin

Signatures of Planets in Debris Disks

Bill Reach

Cometary Debris Trails: Relics of the Disintegration of Short-Period Comets

Sho Sasaki

Hayabusa Mission to Asteroid Itokawa: In-Situ Observation and Sample Return

Ralf Srama

Cassini Saturn Dust Measurements

Mark Sykes

Constructing the Zodiacal Cloud
