

## PROGRAM

# *Oxygen in the Earliest Solar System*

September 19-21, 2005

Using the hand tool of your Acrobat Reader, click on the name of any session.  
After the full program listing for that session appears, click on the title  
of a presentation to view the abstract for that presentation.

### Monday, September 19, 2005

- |            |                               |
|------------|-------------------------------|
| 8:00 a.m.  | Extrasolar Oxygen             |
| 11:25 a.m. | Oxygen in the Sun             |
| 3:15 p.m.  | Solar Nebula Redox Conditions |

### Tuesday, September 20, 2005

- |           |  |
|-----------|--|
| 8:30 a.m. | Comets and Interplanetary Dust Particles |
| 1:00 p.m. | Oxygen Isotopes in Chondritic Components |

### Wednesday, September 21, 2005

- |           |  |
|-----------|--|
| 8:30 a.m. | Understanding Oxygen Isotopic Fractionations in the Solar Nebula |
|-----------|--|
