

TITLE. Cassini-Huygens Aerosol Collector Pyrolyser (ACP) Experiment.

AUTHORS : G.M. Israel , H B. Niemann, and the ACP Experiment Team

ABSTRACT :

A preliminary estimation of the chemical composition of the matter collected by the ACP instrument(both the photochemical aerosols particles and the condensed organics) will be given . ACP pyrolysates are sent to the GCMS probe instrument and GCMS data products relevant to ACP are provided to the ACP Team for analysis.
