

OPAG Titan Working Group

- OPAG group to identify and maintain a focus on areas where progress is most needed to ensure readiness for future exploration of Titan, serving as a resource for both science and technical guidance.
- Also participating in the upcoming decadal survey through preparation of white papers:
 - Titan science and potential for future exploration
 - Montgolfière technology
 - Participating in OPAG white paper as well as other technology and science papers
- Meeting after OPAG adjourns today
- Working to set up website and listserve, contact Elizabeth.Turtle@jhuapl.edu, Athena.Coustenis@obspm.fr
