International Collaboration Topical Analysis Group

Lead: Sanjay Limaye (Univ-Wisconsin)

Members
Jim Cutts (JPL), Mark Bullock (SwRI/VSTDT), Viktor Kerzhanovich (Ex-JPL/Venera), Sanjay Limaye (VEXAG), Masato Nakamura (Akatsuki/ISAS-JAXA), Vivek Singh/Kiran Kumar (ISRO), Håkan Svedhem (Venus Express/ESA), Thomas Widemann (Paris Observatory, France), Ludmilla Zasova (Venera-D/IKI)

Charter
To explore potential international partnerships for Venus exploration through coordinated missions, collaborations between international agencies for contributed elements towards implementation of a flagship mission to Venus for launch in 2020/2021.

Tasks
Foster dialog between Venus scientists and international space agencies and support Venus Exploration meetings e.g. COSPAR 2012 and beyond. Encourage the international partners to express interest in Venus missions in the bilateral meetings with NASA.

Products
- Notes from interactions at international Meetings during 2013
- Provide an update at the 2013 VEXAG meeting of ongoing Venus missions
- Provide an update at the 2013 VEXAG meeting on plans for future international Venus missions
