

# Files for Making Posters

There are 6 pages for each of the following posters. Please print each of the following pages front-to-back in order to be able to fold them into flaps.

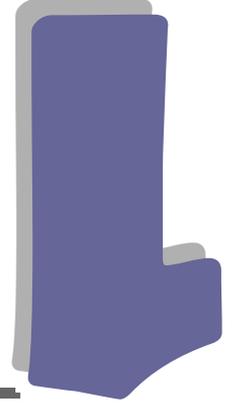

**Step One**  
**Step Two**  
**Step Three**  
**Step Four**

**Launch**  
**Gateway Activities**  
**Mission Activity**  
**Return to the Gateway**

Director  
Flight

Launch

The weather is too stormy!  
Try again on another day.

**Roll again.**

Engineer  
Mission

Launch

The mission engineer reports that the hardware testing isn't complete.

**Roll again.**

# 3

## Launch Flight

Activities  
Officer

Credits:  
NASA/Bill Ingalls

All systems check out and  
you're ready to go.

Your launch is successful!

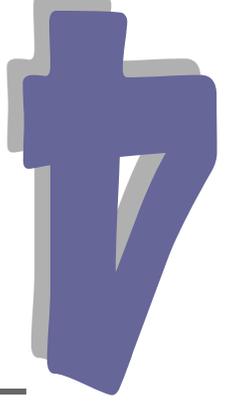

**Go to Step Two: Gateway.**

Credits:  
NASA/Bill Ingalls

Flight  
Surgeon

Launch

The flight surgeon has determined that you have a cold and cannot go on this mission.

**Get a new mission sheet.**

5

Weather  
Officer

Launch

Credits:  
NASA/Bill Ingalls

The launch weather officer reports that the weather is calm and clear.

Your launch is successful!  
**Go to Step Two: Gateway.**

Electrical  
Engineering

Launch

9

All electronic systems  
have been analyzed; launch  
is approved.

Your launch is successful!  
**Go to Step Two: Gateway.**

# Flight Director

---

Funding has been cancelled  
and your mission has been  
aborted.

**Get a new mission sheet  
and start over.**

# Mission Engineer

---

# Gateway 2

A part of mission  
equipment is broken. You  
successfully use a 3D  
printer at the Gateway to  
make a new one.

**Continue to Step 3:  
Mission**

# Gateway 3

Flight Activities  
Officer

---

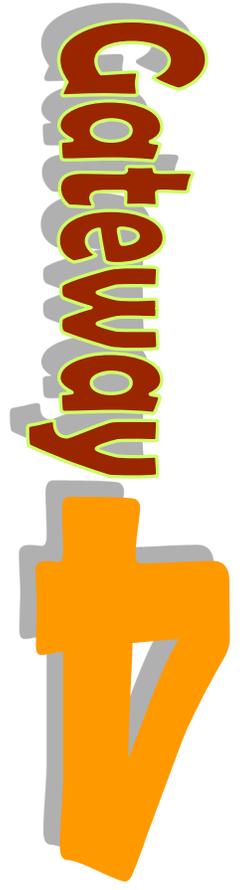

Your heating and cooling system is not working properly, placing the mission in danger.

**Roll again.**

# Flight Surgeon

---

Blood analysis at Gateway shows that the team's health is optimal.

**Continue to Step 3:  
Mission.**

# Gateway 5

Weather  
Officer

---

A solar storm is showering  
Gateway with radiation.  
Your mission is delayed  
until it passes.

**Roll again.**

# Gateway 6

Electrical  
Engineer

---

The equipment that you  
plan to use at the Moon is  
malfunctioning.

**Get a new mission sheet  
and start over.**

# Mission 1

Flight  
Director

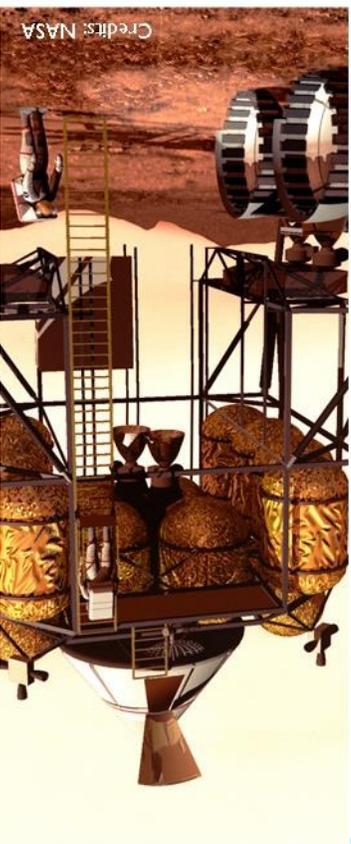

There was a mishap during  
your lunar landing; your  
mission is cancelled.

**Get a new mission sheet  
and start over.**

# Mission 2

MISSION  
Engineer

One of your teammates reports their equipment is malfunctioning. Your mission is canceled.

**Get a new mission sheet and start over.**

# Mission 3

Flight  
Activities  
Officer

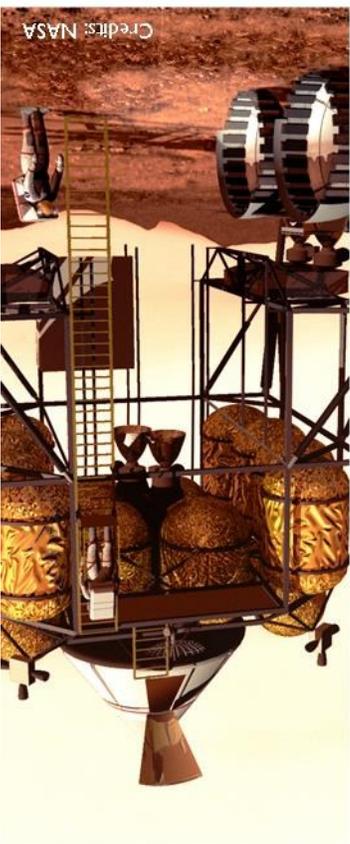

Your team completes their mission and has additional time to explore the lunar surface.

**Continue to Step Four:  
Return.**

# Mission 4

Flight  
Surgeon

A crew member has become very sick. You must return to the Gateway for quick treatment.

**Return to Step Two:  
Gateway.**

# Mission 5

Weather  
Officer

Facilities on the Moon  
protected you and your  
crew from radiation from a  
solar storm. You completed  
your mission.

**Continue to Step Four:  
Return.**

# Mission 6

Electrical  
Engineer

All systems are working  
properly. Mission  
completed.

Congratulations!

**Go to the Step Four:  
Return.**

# Return

## Flight Director

---

You have made a successful  
return back from the  
Gateway. Congratulations!

# Return 2

Credit: U.S. Navy

## Mission Engineer

---

The mission engineer reports that the your spacecraft has had a successful space flight.

Congratulations!

# Return 3

Credit: U.S. Navy

Flight  
Activities  
Officer

---

The heat shield on your space capsule was damaged during the journey from the Gateway. You will have to do a space walk to repair it before you land.

**Roll again.**

# Return

Flight  
surgeon

---

Credit: U.S. Navy

The flight surgeon has  
cleared all crew members  
as healthy.

Your return has been  
successful.

Congratulations!

# Return

# 5

## Weather Officer

---

Credit: U.S. Navy

The weather officer  
reports that the weather  
has obstructed the landing  
view.

**Roll again.**

Return

6

# Electrical Engineering

---

Credit: U.S. Navy

All electrical systems are  
properly working!  
You have made a successful  
return back to Gateway.  
Congratulations!
