

Question & Answer Cards

Scratching the Surface

Q#__

You observe round (circular) holes in the surface of a planet. What might these features be?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

Q#__

Are there channels on Mars that look like the channels on Earth that are carved by flowing rivers?

Got it Right? Advance 3 spaces
Got it Wrong? Stay Put!

Q#__

What is one piece of evidence that Mars, at one time, had flowing water on its surface?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

cut out and use with board.

Question & Answer Cards

Scratching the Surface

Q#__

What causes craters to form?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

Q#__

Volcanos occur on which? Mars? Earth?

Got it Right? Advance 3 spaces
Got it Wrong? Stay Put!

Q#__

Where have we SEEN volcanos erupt? Mars? Earth?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

cut out and use with board.

Cut Here

When all cards are finished,

A#__

Asteroids and comets hitting the surface of a planet

A#__

Mars AND Earth

A#__

We have only SEEN volcanos erupting on Earth

Question & Answer Cards

Inside Mars

Q#__

Which is taller, Mars' tallest volcano, Olympus Mons, or Earth's tallest volcano, Mauna Kea in Hawaii?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

Q#__

Why does Earth have smaller volcanos than Mars, and why do they form chains?

Got it Right? Advance 3 spaces
Got it Wrong? Stay Put!

Q#__

What do volcanos on the surface of a planet tell us about the inside of that planet?

Got it Right? Advance 2 spaces
Got it Wrong? Go back 1 space

cut out and use with board.

Cut Here

When all cards are finished,

A#__

Olympus Mons

A#__

Earth's surface is made of plates that move

A#__

The planet is hot enough inside to melt rock (make magma)
