

The Solar System I'm Rhyme

I'm the one star in this special place.
You'll find me in the center.
Just guess my name to start this game,
then you may surely enter.....

I orbit *fast*, but *slowly* turn,
With a 1,416 hour day!
I'm the first. My name is _____,
I'm small and I am gray.

Because my ghastly atmosphere is mainly CO₂,
It's like a scorching greenhouse of 900 degrees. It's true!
My name is _____, I'm yellow and the hottest,
And all I can say is, "Whew!"

I'm glad I'm home to boys and girls,
Even though I do seem "blue",
I'm Planet _____.
and a little larger than Venus (that's your clue!)

I'm reddish-rust, with rocks and dust
And a 24-hour day.
I'm _____ and I am close in size
To Mercury, I'd say!

I'm a band that's full of rocks and dust
That travel in between
The Inner and Outer Solar System's planetary scene.
And because I'm a band of asteroids, I felt,
I should be called The _____.

I'm full of gas, with colorful stripes,
And a really enormous girth.
I am mighty _____ and
I'm over ten times the size of Earth!

I'm yellow and my ammonia haze
covers each and every thing.
I'm _____ and my beauty's
found within my icy rings!

I'm blue and stinky (it's methane gas!).
I have more than twenty moons!
I'm _____, the third gas giant;
A bit larger than neighbor Neptune.

It takes me over sixty thousand days
to go one whole year through!
I'm the last gas giant. I'm old _____,
and just a little darker blue.

I'm the smallest chunk of icy rock,
but a planet, I will not doubt!
I'm _____, and even though I'm least,
Oh, please don't kick me out!
