

## *Explore Constellations!*

### Books

The Sky Is Full of Stars. Franklyn Branley, 1983, HarperTrophy Publishers, ISBN 0064450023.

Information to engage stargazers, ages 4–8, in viewing and locating star pictures.

Find the Constellations H. A. Rey, 1976, Houghton Mifflin, ISBN 0395244188.

One of the best star and constellation guides for beginners, offering comprehensive explanations of the essentials, presented in an easy-to-understand format for children.

Constellations (Galaxy) Gregory Vogt, Bridgestone Books, 2002, ISBN 0736813829.

Children ages 4–8 can explore what constellations are and how to locate them. Images of constellations are paired with descriptive text.

The Constellations: Stars & Stories Chris Sasaki and Joe Boddy, 2001, Sterling Publishing, ISBN 0806976357.

The 88 constellations, listed in alphabetical order, are illustrated with accompanying explanations of the myths behind them.
