Apollo 11
Landing Site
Features

- Blake
- Dabney
- Evelyn
- Hannah
- Hollye
Regolith Analysis:

- Color
- Components
- Thickness
- Formation
- Vertical “soil” profile
Double Crater Close-Up

Regolith Analysis Continued

- Highland Boundary
- Two types of basalts
- Rock fragments
Craters:
- Measurements of the craters
- Size of the impactor
- Types of craters
- What we can learn from studying craters
View from the right side of the LLM

- Geology of the landing site
- Summary
Double Crater

Little West Crater
