

**PRINT ONLY: SUPPORT FOR MISSION OPERATIONS**

Castalia B.

*GeoTIFF Spatial Referencing for HiRISE JPEG2000 Data Products* [#2484]

GeoTIFF spatial reference data included in HiRISE JPEG2000 data products.

Casotto S. Padovan S. Bardella M.

*Orbital Configuration Sensitivity of an Altimetric Orbiter for a Europa Solid Tide Detection Mission* [#2174]

This study evaluates the ability of an altimetric orbiter to determine Europa's Love numbers. This has been accomplished by inversion of simulated geocentric ranging to the spacecraft and altimeter measurements to the surface of Europa.

Anderson J. A.

*ISIS Camera Model Design* [#2159]

The Integrated Software for Imagers and Spectrometers (ISIS) provides camera model support for a variety of past and current NASA missions. Adding new camera models to ISIS has become easier due to object-oriented design.
