

Monday, August 2, 2004
POSTER SESSION
17:30 – 21:30 Flamengo and Copacabana Rooms

Poster Session to be Continued on Tuesday, August 3, 2004
16:30 – 18:30

Impact Processes and Structures

Bischoff A. Schultz L.

Abundance and Meaning of Regolith Breccias Among Meteorites [#5118]

Gattacceca J. Rochette P. Denise M. Folco L.

An Impact Related Origin for the Foliation of Ordinary Chondrites [#5029]

Echaurren J. C. Ocampo A. C.

New Calculations and Estimations for Hydrothermal Zones and Impact Conditions on Chicxulub, Earth and Isidis Planitia, Mars [#5008]

Lana C. Morgan J.

World-Wide Impact Stratigraphy at the K-T Boundary: Implications for the Chicxulub Impact Angle [#5063]

Echaurren J. C. Ocampo A. C.

Calculation and Prediction of Hydrothermal Zones and Impact Conditions on Argyre Planitia, Mars [#5009]

Vishnevsky S. A. Raitala J. Gibsher N. A. Ohman T. Palchik N. A.

The Popigai "Fluidizite" Dykes: A New Data on Their Mineralogy and Petrology [#5028]

Pesonen L. J. Poutanen M. Ruotsalainen H. E.

The Keurusselkä Impact Structure, Central Finland — Preliminary Geophysical Data [#5068]

Duhamel I. Genest S. Robert F. Tremblay A.

A Re-Evaluation of the Size of the Carswell Astrobleme, Saskatchewan, Canada [#5071]

Povenmire H. Barnhart C.

Newly Discovered Anda-type and Stretched Indochinites from Thailand [#5019]

Povenmire H. Strange R. L.

The First Georgia Tektite from Wilkinson County, Georgia [#5016]

Povenmire H. Cathers C.

A Georgia Tektite Worked into a Clovis Type Arrow Point [#5012]
