POSTER SESSION

17:30 – 21:30 Flamengo and Copacabana Rooms

Poster Session to be Continued on Tuesday, August 3, 2004

16:30 – 18:30

Ordinary Chondrites

Folco L. Welten K. C. Nishiizumi K. Hillegonds D. J.

Discovery and Terrestrial Age of FRO 01149, an Extremely Small, Weathered and Old H-Chondrite Found on Top of Frontier Mountain, Antarctica [#5123]

Trigo-Rodriguez J. M. Llorca J. Ortiz J. L. Docobo J. A. Castro-Tirado A. Garcia-Guinea J. Rubin A. E. Spurny P. Borovicka J. Casanova I.

The "Villalbeto de la Peña" Meteorite Fall: Bolide Description, Recovery and Classification [#5085]

Povnmire H.

The New Statesboro, Georgia L5 Chondrite [#5020]

Eggenschwiler D. Krähenbühl U. Hofmann B.

Water-Soluble Salts in Oman Desert Chondrites [#5045]

Nishimura C. Numano A. Matsuda J.

Physical Separation of a Fraction Enriched in Noble Gases in Ordinary Chondrite [#5064]

Brandstätter F.

Cathodoluminescence Study of Albitic Feldspars and Ca-Phosphates in Type 4–6 Ordinary Chondrites [#5122]

Bridges J. C. Schmitz B. Hutchison R.

Petrographic Classification and Chondrule Textures of Fossil Meteorites from Southern Sweden [#5154]

Friedrich J. M. Lipschutz M. E.

Elemental Fractionation and Mobilization in Equilibrated L Falls Due to Shock-related Heating [#5047]

Zucolotto M. E. Antonello L. L.

Brazilian Meteorites [#5089]

Nunes G. A. Cassino F. S. L. Rodrigues R. C. Romano R.

The Meteorite Collection of the School of Mines, Federal University of Ouro Preto [#5189]

Smith D. L. Herd R. K. Ernst R. E. Samson C.

Stony Meteorite Characterization by Non-Destructive Measurement of Petrophysical Properties [#5160]
