

SUMMARY OF THE MARS CLIMATE MODELING CENTER (MCMC) WORKSHOP. Jeffery L. Hollingsworth¹,
¹Space Science and Astrobiology Division, Planetary Systems Branch, NASA Ames Research Center, Moffett Field,
CA 94035, (jeffery.l.hollingsworth@nasa.gov).

Synopsis: We present a brief summary of the Mars Climate Modeling Center (MCMC) workshop that was held at the NASA Ames Research Center, Space Science and Astrobiology Division, 30 September through 2 October 2008.

The main goals of the workshop were to openly discuss the needs of the Agency regarding a national

center for Mars climate modeling and research in support of its Mars Exploration Program (MEP), and, to establish an efficient resource for the Mars science and mission engineering communities.

Acknowledgements: The MCMC workshop was supported by NASA and the Planetary Science Division.
