

Protostars and Planets V

List of Participants as of September 12, 2005

Lucia Adame-Villanueva Instituto de Astronomia, UNAM	Fred Adams University of Michigan	Cristina Afonso Max-Planck Institut fuer Astronomie
Yuri Aikawa Kobe University	Silvia Alencar Laboratoire d'Astrophysique de Grenoble	Richard Alexander Institute of Astronomy, Cambridge
France Allard Centre de Recherche Astronomique de Lyon	Lori Allen Harvard-Smithsonian Center for Astrophysics	Peter Allen Penn State University
Joao Alves ESO	Catarina Alves de Oliveira European Southern Observatory (ESO)	Rohit Anand
Morten Andersen Steward Observatory, University of Arizona	Jeffrey Anderson Department of Astronomy, University of Virginia	Philippe Andre CEA Saclay
Sean Andrews Institute for Astronomy	Martin Andrews University College London	Antoaneta Antonova Armagh Observatory
Daniel Apai Steward Observatory/NASA Astrobiology Institute	Hector Arce American Museum of Natural History	David Ardila Spitzer Science Center
Joana Ascenso Centro de Astrofisica da Universidade do Porto	Colin Aspin Gemini Observatory	Marc Audard Columbia Astrophysics Laboratory
Daisuke Baba Nagoya Univ.	Dana Backman SOFIA / SETI Institute	Aurore Bacmann Observatoire de Bordeaux
Chang Hyun Baek Korea Astronomy & Space Science Institute	John Bally University of Colorado, Boulder	Zoltan Balog Steward Observatory
Dinshaw Balsara Physics Dept., Univ. of Notre Dame	Robi Banerjee Dep. Physic & Astronomy, McMaster University	Zita Banhidi Stockholm Observatory
Isabelle Baraffe Ecole Normale Superieure	Travis Barman UCLA Physics and Astronomy	Rory Barnes Lunar & Planetary Lab
Mary Barsony San Francisco State University	Jeffrey Bary NSF Fellow (University of Virginia)	Pierre Bastien University of Montreal

Protostars and Planets V

List of Participants as of September 12, 2005

Shantanu Basu
University of Western Ontario

George Benedict
McDonald Observatory

Edwin Bergin
University of Michigan

Steve Berukoff
UCLA

Malvina Billeres
Universidad de Chile

Jon Bjorkman
University of Toledo

Christiaan Boersma
Kapteyn Astronomical Institute

Ian Bonnell
University of St Andrews

Sandrine Bottinelli
University of Hawaii

Catherine Braiding
Macquarie University

Cesar Briceno
Centro de Investigaciones de
Astronomia (CIDA)

Sean Brittain
NOAO

Joanna Brown
California Institute of Technology

Matthew Bate
University of Exeter

Myriam Benisty
Laboratoire d'Astrophysique de
Grenoble

Benjamin Berkey
Univeristy of Hawaii at Hilo

Henrik Beuther
Harvard-Smithsonian Center for
Astrophysics

Suzanne Bisschop
Leiden Observatory

Karen Bjorkman
University of Toledo

Aaron Boley
Indiana University

Sylvain Bontemps
OASU/L3AB, Observatoire de
Bordeaux

Jeroen Bouwman
MPIA Heidelberg

Wolfgang Brandner
Max-Planck-Institute for Astronomy

Stephane Brilliant
European Southern Observatory

Crystal Brogan
University of Hawaii, Institute for
Astronomy

Geoffrey Bryden
JPL

Charles Beichman
Caltech

Jean-Philippe Berger
Laboratoire d'Astrophysique de
Grenoble

Bruce Berriman
IPAC, Caltech

Beth Biller
University of Arizona

Natalia Bizunok
Harvard-Smithsonian Center for
Astrophysics

Andy Boden
Michelson Science Center/Caltech

Jade Bond
University of Arizona

Alan Boss
Carnegie Institution

Herve Bouy
I.A.C, Spain

Emma Brannigan
University of Hertfordshire

Christian Brinch
Leiden Observatory

Kate Brooks
CSIRO Australia Telescope National
Facility

Jane Buckle
University of Cambridge

Protostars and Planets V

List of Participants as of September 12, 2005

Adam Burgasser
Massachusetts Institute of Technology

Robert Bussmann
Steward Observatory

Jan Cami
NASA Ames Research Center

Andres Carmona Gonzalez
European Southern Observatory

Mark Casali
European Southern Observatory

Alain Castets
Observatoire Aquitain des Sciences de
l'Univers

Riccardo Cesaroni
INAF - Osservatorio Astrofisico di
Arcetri

Sukanya Chakrabarti
University of CA, Berkeley

Jacqueline Chapman
Macquarie University

Wen-Ping Chen
National Central University

Rolf Chini
Astronomisches Institut Bochum

Minho Choi
KASI

Ed Churchwell
University of Wisconsin-Madison

Bernard Burke
MIT

Harold Butner
Joint Astronomy Centre

Augusto Carballido
Institute of Astronomy, University of
Cambridge

John Carr
Naval Research Laboratory

Sarah Casewell
University of Leicester

Cecilia Ceccarelli
LAOG, Grenoble (France)

Seung-Hoon Cha
Korea Astronomy and Space Science
Institute (KASI)

Abhijit Chakraborty
University of Illinois Urbana-
Champaign (UIUC)

Gael Chauvin
ESO

Christine Chen
NOAO

Lysa Chizmadia
University of Hawaii

Jessie Christiansen
University of New South Wales

Lucas Cieza
The University of Texas at Austin

Matthew Burleigh
University of Leicester

Kai Cai
Indiana University

Sean Carey
Spitzer Science Center

Joseph Carson
Jet Propulsion Laboratory

Arnaud Cassan
Institut d'Astrophysique de Paris

Jose Cernicharo
DAMIR-IEM. CSIC

Gilles Chabrier
ENS-Lyon

Edward Chambers
Boston University

Huei-Ru Chen
Institute of Astronomy and
Astrophysics, Academia Sinica

Eugene Chiang
UC Berkeley

Jungyeon Cho
Chungnam National University

Antonio Chrysostomou
University of Hertfordshire

Mark Clampin
NASA/GSFC

Protostars and Planets V

List of Participants as of September 12, 2005

Paul Clark
University of St Andrews

David Collins
University of California San Diego

Michael Connelley
University of Hawaii, Institute for
Astronomy

Sean Corkery
Dublin City University

Kevin Covey
University Of Washington

Dale Cruikshank
NASA Ames Research Center

Irene Cruz-Gonzalez
Instituto de Astronomia, UNAM

Michael Cushing
Steward Observatory

Christopher Davis
Joint Astronomy Centre

Christopher De Vries
California State University Stanislaus

Steve Desch
Arizona State University

Curtis DeWitt
University of Florida

Kazuhito Dobashi
Tokyo Gakugei University

Mark Claussen
NRAO

Celine Combet
Dublin Institute for Advanced Studies

James Connelly
University of Texas at Austin

Angela Cotera
SETI Institute

James Cox
Cardiff University

Richard Crutcher
University of Illinois

Andrew Cunningham
University of Rochester

Peter Dargue
Queen Mary, University of London

James De Buizer
Gemini Observatory

Magali Deleuil
Laboratoire d'Astrophysique de
Marseille

David Devine
University of San Diego

James Di Francesco
National Research Council of Canada

Clare Dobbs
St Andrews University

Laird Close
University of Arizona

Fernando Comeron
European Southern Observatory

Stuartt Corder
California Institute of Technology

Iain Coulson
Joint Astronomy Centre, Hilo

Robert Crockett
Princeton University, Department of
Astrophysical Sciences

Kelle Cruz
American Museum of Natural History

Rachel Curran
Dublin Institute for Advanced Studies

Gary Davis
Joint Astronomy Centre

Miguel de Val Borro
Stockholm University

William Dent
UKATC

Michael Devirian
Jet Propulsion Laboratory

Richard Ditteon
Rose-Hulman Institute of Technology

Ryan Doering
STScI

Protostars and Planets V

List of Participants as of September 12, 2005

Carsten Dominik
University of Amsterdam

Steven Doty
Denison University

Gaspard Duchene
Observatoire de Grenoble

Andrea Dupree
Harvard-Smithsonian CfA

Anne Dutrey
Observatoire de Bordeaux

Suzan Edwards
Smith College

Jochen Eisloffel
Thuringer Landessternwarte

Melissa Enoch
Caltech

Jay Farihi
Gemini Observatory

Christian Fendt
Max Planck Institute for Astronomy

Michel Fich
University of Waterloo

Robert Fisher
Gemini Observatory

Eric Ford
UC Berkeley

Greg Doppmann
Gemini Observatory

Colie Doucet
CEA saclay SAp

Cornelis Dullemond
Max-Planck-Institut fuer Astronomie
Heidelberg

Maria Duran-Rojas
CRyA-UNAM

Natalia Dziourkevitch
Max-Planck Institute for Astronomy

David Ehrenreich
Institut d'astrophysique de Paris

Joshua Eisner
Miller Fellow, UC Berkeley

Neal Evans
The University of Texas at Austin

Davide Fedele
ESO

Matilde Fernandez
Max Planck Institut fuer Astronomie

David Field
University of Aarhus

Jacob Fisker
University of Notre Dame

Jonathan Fortney
NASA Ames Research Center

Alain Doressoundiram
Observatoire de Paris

Turlough Downes
Dublin City University

Michael Dunham
University of Texas at Austin

Richard Durisen
Indiana University

Richard Edgar
University of Rochester

Carlos Eiroa
Universidad Autonoma de Madrid

Kimberly Ennico
NASA Ames Research Center

Sergio Fajardo-Acosta
Spitzer Science Center/Caltech

Eric Feigelson
Penn State University

Bruno Ferreira
University of Florida

William Fischer
University of Massachusetts

Jan Forbrich
Max-Planck-Institut fuer
Radioastronomie

Thierry Forveille
CFHT

Protostars and Planets V

List of Participants as of September 12, 2005

Jonathan Foster
Harvard-Smithsonian Center for
Astrophysics

Richard Freedman
Seti Institute

Wilfred Frieswijk
Kapteyn Astronomical Institute

Masaki Fujimoto
Dept. Earth Planet. Sci, Tokyo Inst.
Tech.

Daisuke Fujiwara
Graduate School of Environmental
Studies, Nagoya University

Yasuo Fukui
Nagoya University

Eric Gaidos
University of Hawaii

Franck Galland
LAOG

Artur Gawryszczak
Copernicus Astronomical Center

Vincent Geers
Leiden Observatory

Hidenori Genda
Tokyo Institute of Technology

Alfred Glassgold
UC Berkeley

Bertrand Goldman
Max-Planck fuer Astronomie

Adam Frank
University of Rochester

Malcolm Fridlund
European Space Agency

Dirk Froebrich
Dublin Institute for Advanced Studies

Motosuji Fujishita
Graduate school of science, Nagoya
University

Takuya Fujiyoshi
Subaru Telescope

Gary Fuller
University of Manchester

Magnus Galfalk
Stockholm Observatory

Jose Gallardo
CRAL-ENS Lyon

Jian Ge
The University of Florida

Christopher Gelino
California Institute of Technology

Teresa Giannini
INAF - Osservatorio Astronomico di
Roma

Adrian Glauser
Paul Scherrer Institut

Paul Goldsmith
Cornell University

Wesley Fraser
University of Victoria

Rachel Friesen
University of Victoria

Cesar Fuentes
Harvard University

Kenta Fujita
Graduate School of Science and
Technology , Kobe University

Misato Fukagawa
Nagoya University

Ray Furuya
California Institute of Technology

David Gallagher
NASA - Jet Propulsion Laboratory

Bernard Gaudi
Harvard Smithsonian Center for
Astrophysics

Thomas Geballe
Gemini Observatory

Dawn Gelino
Michelson Science Center/Caltech

Michael Gillon
University of Liege

Simon Glover
American Museum of Natural History

David Golimowski
Johns Hopkins University

Protostars and Planets V

List of Participants as of September 12, 2005

Jean-Francois Gonzalez Centre de Recherche Astronomique de Lyon	Dulce Isabel Gonzalez-Gomez None at present (Ex-IAUNAM, Mexico)	Simon Goodwin Cardiff/Sheffield
Carol Grady Eureka Scientific and GSFC	Matthew Graham Steward Observatory, University of Arizona	Konstantin Grankin Ulugh Beg Astronomical Institute
Jane Greaves University of St Andrews	Tom Greene NASA's Ames Research Center	Scott Gregory University of St Andrews, UK
Julia Greissl University of Arizona	Keith Grogan Jet Propulsion Laboratory	Nicolas Grosso Laboratoire d'Astrophysique de Grenoble
Will Grundy Lowell Observatory	Pin-Gao Gu Institute of Astronomy & Astrophysics, Academia Sinica	Manuel Guedel Paul Scherrer Institute
Stephane Guilloteau L3AB Obs. Bordeaux	Maiken Gustafsson University of Aarhus	Robert Gutermuth University of Rochester
Nader Haghighipour University of Hawaii-Manoa	Karl Haisch Utah Valley State College	Murad Hamidouche University of Illinois
Catrina Hamilton Mount Holyoke College/UMass	Tomoyuki Hanawa Chiba University	Charles Hansen University of California Berkeley
David Harker University of California, San Diego	Tim Harries University of Exeter	Patrick Hartigan Rice University
Paul Harvey University of Texas	Takahiro Hayakawa National Astronomical Observatory of Japan	Akiko Hayashi Graduate school of science, Nagoya University
Mitsuru Hayashi National Astronomical Observatory of Japan	William Heacox University of Hawaii at Hilo	Sara Heap NASA's Goddard Space Flight Center
Abigail Hedden Steward Observatory	Christiane Helling European Space Agency, ESTEC, Noordwijk	Frank Helmich SRON Netherlands Institute for Space Research
Patrick Hennebelle Observatoire de Paris	Thomas Henning MPI-Astronomy	William Herbst Wesleyan University

Protostars and Planets V

List of Participants as of September 12, 2005

Jesus Hernandez
Centro de Investigaciones de
Astronomia

Kenneth Hinkle
NOAO

Klaus Hodapp
Institute for Astronomy

Peter Hofner
New Mexico Tech & NRAO

Wayne Holland
UK Astronomy Technology Centre

Mitsuhiko Honda
Department of Infrared Astrophysics,
ISAS/JAXA

Tracy Huard
Harvard-Smithsonian CfA

Liz Humphreys
Harvard-Smithsonian CfA

Masahiro Ikoma
Tokyo Institute of Technology

Shu-ichiro Inutsuka
Kyoto University

Meguru Ito
Subarutelescope, NAOJ

Daniel Jaffe
UT Austin

Moira Jardine
University of St Andrews

Arika Higuchi
NAOJ/Kobe University

Naomi Hirano
Academia Sinica, Institute of
Astronomy & Astrophysics

Jennifer Hoffman
University of California, Berkeley

Emma Hogan
University of Leicester

David Hollenbach
NASA Ames Research Center

Takashi Hosokawa
NAOJ

David Hubber
Cardiff University

Todd Hunter
Harvard-Smithsonian Center for
Astrophysics

Yusuke Imaeda
Kobe University

Miki Ishii
Subaru Telescope

Yoichi Itoh
Graduate School of Science and
Technology, Kobe University

Hannah Jang-Condell
Carnegie Institution of Washington

Robin Jeffries
Keele University

Tracey Hill
University of New South Wales,
Australia

Melvin Hoare
University of Leeds

Vera Hoffmeister
Astronomisches Institut der RUB

Michiel Hogerheijde
Leiden Observatory

Matthew Holman
Harvard-Smithsonian Center for
Astrophysics

James Hough
University of Hertfordshire

Nuria Huelamo
ESO, Chile

Shigeru Ida
Tokyo Institute of Technology

Remy Indebetouw
University of Virginia

Naoki Ishitsu
Kyoto University

James Jackson
Boston University

Anne-Katharina Jappsen
Astrophysikalisches Institut Potsdam

David Jewitt
University of Hawaii

Jeff Valenti
Stsci

Ewine van Dishoeck
Leiden Observatory

Protostars and Planets V

List of Participants as of September 12, 2005

Julian van Eyken
University of Florida

Peggy Varniere
University of Rochester

Silvia Vicente
European Southern Observatory/Faculty
of Sciences of Lisbon University

Stefanie Wachter
Caltech / Spitzer Science Center

Valentine Wakelam
The Ohio State University

Frederick Walter
Stony Brook University

Yang Wang
Harvard-Smithsonian Center for
Astrophysics

Makoto Watanabe
Subaru Telescope, NAOJ

Douglas Weights
University of Hertfordshire

Emma Whelan
Dublin Institute for Advanced Studies

Barbara Whitney
Space Science InSTITUTE

Karen Willacy
JPL

Joshua Winn
Harvard-Smithsonian Center for
Astrophysics

Tim van Kempen
Leiden Observatory

Thangasamy Velusamy
JPL

Eva Villaver
STScI/ESA

Meenakshi Wadhwa
The Field Museum

Joshua Walawender
University of Colorado

Dolores Walther
Gemini Observatory

Mark Wardle
Macquarie University

Sei-ichiro Watanabe
Nagoya University

Alycia Weinberger
Carnegie - DTM

Russel White
Caltech

Anthony Whitworth
Cardiff University

John Wilson
University of Virginia

Elaine Winston
Smithsonian Astrophysical Observatory

Harri Vanhala
USRA

Arjan Verhoeff
IAP

Nikolaus Volgenau
University of Cologne

Walter Wagner
Monterey Bay Perpetual Endowment
Foundation for Wellness

Lucianne Walkowicz
University of Washington

Junfeng Wang
Penn State Univ.

Derek Ward-Thompson
Cardiff University

Zodiac Webster
Columbus State University

David Weintraub
Vanderbilt University

Stuart Whitehouse
University of Exeter

Bruce Wilking
University of Missouri-St. Louis

Christine Wilson
SAO/McMaster

Jennifer Wiseman
NASA Headquarters

Protostars and Planets V

List of Participants as of September 12, 2005

John Wisniewski
NASA GSFC/USRA

Grace Wolf-Chase
Adler Planetarium/ Univ. of Chicago

Nancy Wolk
Harvard-Smithsonian Center for
Astrophysics

Alwyn Wootten
NRAO

Jason Wright
University of California, Berkeley

Mark Wyatt
Institute of Astronomy, University of
Cambridge

Fumiharu Yamoto
Kyushu University

Chikako Yasui
Institute of Astronomy, University of
Tokyo

Erick Young
University of Arizona

Qizhou Zhang
Harvard-Smithsonian Center for
Astrophysics

Hans Zinnecker
Astrophysikalisches Institut Potsdam

Rob Wittenmyer
University of Texas at Austin

Sidney Wolff
NOAO

Kenneth Wood
St Andrews

Jan Wouterloot
Joint Astronomy Centre

Richard Wunsch
Nicolaus Copernicus Astronomical
Center

Hiroaki Yamamoto
Nagoya University

Hao Yang
Rice University

Jason Ybarra
San Francisco State University

Hisayoshi Yurimoto
Hokkaido University

Ji-Lin Zhou
Nanjing University

Sebastian Wolf
Max Planck Institute for Astronomy.
Emmy Noether Research Group

Scott Wolk
Harvard-Smithsonian Center for
Astrophysics

Paul Woods
NASA/JPL

Chris Wright
UNSW@ADFA

Gerhard Wurm
Institute for Planetology

Takuya Yamashita
Subaru Telescope

Seiji Yasuda
Pure and Applied Sciences, University
of Tsukuba

Sozo Yokogawa
Smithsonian Astrophysical Observatory

Zhi-Wei Zhang
Institute of Astronomy, National Central
University, Taiwan

Ming Zhu
Joint Astronomy Centre
