

OPAG Newsletter

26 March 2015

Dear Colleagues,

We have set a date for the summer OPAG meeting. It will be August 24-26 at JHU/APL. Please mark your calendars!

The meeting report and the posters from the February 19-20 OPAG meeting are now posted on the OPAG homepage. The presentation from the OPAG townhall at LPSC is also posted.

With New Horizons flying by Pluto this summer you may have an opportunity to give public talks about this exciting event. Overview slides are posted on the SBAG website at http://www.lpi.usra.edu/sbag/new_horizons/.

I would also like to draw your attention to the announcement for NASA's Planetary Science Summer School, below.

Sincerely,

Candy Hansen
OPAG Chair
