

# OPAG Newsletter

27 February 2015

Dear Colleagues,

The presentations from last week's OPAG meeting, 19-20 February 2015, at NASA Ames Research Center, are now posted on the OPAG website: <http://www.lpi.usra.edu/opag/>. The findings and meeting report will be posted there soon.

As a reminder, we will have an OPAG townhall at the Lunar and Planetary Science Conference (LPSC) on Wednesday, March 18, at noon.

I'd like to call attention to the Astrobiology Science Conference (AbSciCon), in Chicago June 15-19, 2015. There are at least two sessions of interest – see OPAG webpage <http://www.lpi.usra.edu/opag/calendar.shtml> for more information.
