

Optimizing Science and Exploration Working Group (OSEWG)

Key Milestones and Events

These milestones include but are not limited to:

- OSEWG activities (workshops and reports, excluding regular team and bi-weekly plenary meetings)
- NASA activities (meetings, field tests, and launches) being tracked or monitored by OSEWG
- External events, such as meetings and conferences, which serve as an OSEWG opportunity for outreach to the science community

Upcoming Events/Milestones

Meeting or Event

2008 Activities

- ❖ October 19-November 1, 2008: Analog Field Test of the lunar rovers for engineering assessment, Black Point Lava Field, AZ
- ❖ October 27, 2008: OSEWG Website open to public access (hosted by LPI, Houston, TX)
- October 28-31, 2008: LEAG/ILEWG Meeting @ KSC, Cape Canaveral, FL
 - ❖ Final Outbrief of the LEAG Roadmap
- ❖ October 30, 2008 (TBD): Final Report of LEAG/OSEWG '07 Sampling Workshop.
- ❖ November 6-7, 2008: NAC Planetary Protection Subcommittee @ NASA HQ
- ❖ November 7-14, 2008: Analog Field Test of the In-Situ Resource Utilization (ISRU), Hawaii
- ❖ November 13, 2008: Complete OSEWG Integrated Tasking Matrix
- December 15-19, 2008: American Geophysical Union (AGU), San Francisco, CA

2009 Activities

- January 4-8, 2009, American Astronomical Society (AAS), Long Beach, CA
- ❖ April 2009 (TBD): LRO/LCROSS Launch no earlier than 4/24/2009 @ KSC/CCAFL, Cape Canaveral, FL
- ❖ Summer/Fall 2009 (TBD): Mission Analogs Field Test (deployment of Pressurized and Unpressurized Rovers), Black Point Lava Field, AZ (TBD)
