

## Appendix M

### Astronaut's Guidebook to Terrestrial Impact Craters

LPI produced an atlas for astronauts who may want to see Earth's impact craters from planes, jets, the space shuttle, and the International Space Station. LPI Technical Report No. 88-03 was written by Richard A. F. Grieve, C. A. Wood, J. B. Garvin, G. McLaughlin, and J. F. McHone, Jr. and published in 1988.
