

The Teams

*Howard University
"Hematopoietic Stem Cell Therapy for Exploration of Space"*

*Pennsylvania State University
"A Modular Multi-Function Rover and Control System for EVA"*

*Colorado School of Mines
"Martian Weather Station"*

Georgia Institute of Technology
*"Bifrost: A Large-Scale Solution to Low-Cost
Space Access"*

University of Washington
"Self Sustained Closed Ecological Systems"

University of California, Berkeley
*"Exobiology: The Survival Ability of Halophiles Under
Martian Conditions."*

University of Maryland
*"The Endurance Project: Learning to Live and
Work on the Moon"*
