

10th Meeting of the NASA Small Bodies Assessment Group
Wednesday January 8, 2014 – Thursday January 9, 2014
Washington, DC

Updates as of 01/06/14 in yellow

Wednesday, January 8, 2014

- 9:00 am Welcome – Nancy Chabot
9:15 am Review and discussion of past findings – Lindley Johnson

morning chair: Tim Swindle

Exploration Activities Related to Small Bodies

- 9:45 am Target NEO 2 Report - Brent Barbee
10:00 am Asteroid Initiative and Grand Challenge Activities – Michele Gates
10:45 am *Discussion*
11:15 am Strategic Knowledge Gaps (SKG) Plans – John Connolly
11:30 am SSERVI Update – Yvonne Pendleton
11:45 am NHATS (Near-Earth Object Human Space Flight Accessible Targets Study)– Brent Barbee
12:00 pm *Discussion*

LUNCH BREAK

afternoon chair: Tommy Grav

Planetary Defense Activities

- 1:30 pm NASA Planetary Defense Update – Lindley Johnson
2:00 pm NAC Planetary Defense Task Force – Don Yeomans
2:15 pm NEOWISE Update – Amy Mainzer
2:30 pm Impactor for Surface and Interior Science (ISIS) – Steve Chesley
2:45 pm *Discussion + Break*

Space Technology Small Bodies Related Activities

- 3:15 pm Space Technology Mission Directorate Update – Tibor Balint
3:45 pm ASRG and RPS – Ralph McNutt
4:00 pm NIAC Muon Detector – Tom Prettyman

4:15 pm New Horizons Update – Hal Weaver

4:30 pm Rosetta Update – Hal Weaver

4:45 pm *Discussion*

Thursday, January 9, 2014

9:00 am Welcome back – Nancy Chabot

morning chair: Yan Fernandez

Small Bodies Science Activities

9:00 am Planetary Science Division Update – Jim Green
9:30 am *Discussion*
10:00 am Research and Analysis Program Update – Jonathan Rall
10:20 am *Discussion*
11:00 am Planetary Balloon Opportunities – Tibor Kremic
11:15 am PDS Small Bodies Node – Don Davis
11:25 am USGS ISIS Support for Small Body Missions – Tim Titus
11:35 am Small Body Mapping Needs – Ara Nefian
11:45 am HST and Small Body Observations – Marc Buie
11:55 am *Discussion*

LUNCH BREAK

(Steering Committee Meeting)

afternoon chair: Bonnie Buratti

1:30 pm Arecibo and NEO Observations – Patrick Taylor
1:40 pm Antarctic Search for Meteorites (ANSMET) – Ralph Harvey
1:50 pm OSIRIS-REx Update – Jason Dworkin
2:05 pm Dawn Update – Carol Raymond
2:20 pm Cassini Small Bodies Observations – Tilmann Denk
2:35 pm Marco Polo-R Update – Andy Cheng
2:50 pm *Break*
3:00 pm Hayabusa 2 Update – Hitoshi Kuninaka
3:15 pm ISON and Future Observing Campaigns – Casey Lisse

3:30 pm ASRG and ISPT Technology Infusion Study – David Anderson
3:45 pm Viable Propulsion Options – David Anderson

4:00 pm *Discussion + Wrap Up*
