### From First Steps to Next Steps: Celebrating Apollo 11 and the Future of Lunar Exploration

David A. Kring

USRA - Lunar and Planetary Institute

On the occasion of the 50th anniversary of the Apollo 11 lunar landing, Dr. Kring will review the inspiring work of the Apollo program. He will then describe current efforts to implement Space Policy Directive-1 with astronauts on the lunar surface for “long-term exploration and utilization.” When discussing each lunar location, Dr. Kring will utilize the 23-foot diameter lunar model hanging in the Glassell Gallery with the latest NASA imagery of the lunar surface.

Glassell Gallery, HMNS, Saturday, July 20, 2019, 6:30 p.m.  
Tickets available at <http://www.hmns.org/>.
