Greeting Venus community, this Istserv New note has only one item. We're sad to announce that VEXAG will be going fully Virtual this year.

After consideration of COVID-19 trends, logistics, and everything else, we're going fully virtual for VEXAG this year.

VEXAG will now be 1.5 days, fully remote and coordinated through LPI. There will be a half day Monday afternoon, Nov. 8, and a full day Tuesday Nov. 9.

It is likely that all contributed abstracts will become posters, but the final schedule is still being re-organized.

Schedule updates will be forthcoming, and the VEXAG website will be updated soon.

With thanks,  
Darby and Noam
